

Trust-IT Services, Communicating ICT to Markets has built an experienced, interdisciplinary team of talented and passionate professionals highly skilled in creating communication, digital web strategies and software for today's digital environment, be that for business, research & science or public sector organisations. TRUST-IT is an SME founded in 2002 to deliver specialised services in ICT. Our ability to assess and promote emerging technologies is widely appreciated in rapidly evolving, internationally distributed user communities. Trust-IT combines dedicated communication and collaboration solutions to provide a full-service to customers and clients to help deliver more value and drive more active and engaged users. Trust-IT is an end-to-end solution provider, developing both software and communication & digital marketing services for both on-line business or research services.
